Leadership Framework Workshop at SIRDA

Posted on February 15, 2014 by Richa Sharma

Centre for Sustainable Development organized one day Leadership Framework Workshop for students of B. tech in SIRDA Institute of Engineering and Technology, Sundernagar under the program LEAD proudly sponsored by HP and ICIE. The workshop was based on the approach to develop leadership among new generation professionals. The students took part in the workshop whole heartedly. The workshop covered issues around personal, professional and community lives which remain unaddressed due to lack of leadership in their personal lives. Students opined that there needs to be certain qualities in individuals to turn them into a leader like their ability to initialize, risk taking, will power, responsible, humility, confidence, enthusiasm, compassion etc. During workshop a common framework of Leadership was developed and areas for student engagement like women empowerment, anti-corruption, gender equality, culture and tradition, health, livelihood, poverty, environment etc. were identified. The workshop was conducted by Jitender Verma, Richa Sharma, Sushant sharma, Richa Sharma and Preety Guleria of Centre for Sustainable Development. Dr. Pushpender Dhiman; Principal, Sonal Sood, Vartika Sharma were also present on the occasion.
In the next stage the students will be organized in various students groups to work in areas identified during the workshop. The students will take 'LEAD' to resolve issues in such areas. The students engagement will not only resolve many social issues but the students will pick up highly prized functional skills like interpersonal skills, project management, crisis management, decision making, confidence, innovation, creativity etc.
